WORK SESSIONS: The Copperhill Station has been relocated to the new Main Track in Copperhill and is operational. The North end has had some turnouts installed for a crossover to the under Helix loop from the main and are operational. The turnout for upper Murphy Coal has been removed and a new turnout installed just North of where the old turnout was to facilitate a flat turnout base. Remember we are beginning to collect items for the March Piedmont Sale. If you have a donation, bring it by. Come join the crew on Wednesday and enjoy working on the layout or just enjoy the comradeship.

The Ride the Rails was very successful as I'm sure you have read on Davids email. Thanks to all who worked hard to make it happen. David will be sending out volunteer signups shortly for the Thanksgiving RTR.

Birthdays for October: Jerry Hicks, Rick Mahoney, Jim Welton, Tommy Yoder
